SUMMARY

A 5th-semester D3 Informatics Management student at Padang State Polytechnic (GPA 3.19) with hands-on experience in web development (PHP, MySQL, MVC) and UI/UX design with Figma. Built an event management web application for student organization events and designed interactive prototypes. Certified Junior Graphic Designer with two Huawei ICT Academy cloud courses completed. Seeking an internship to apply technical and design skills in a professional environment.

EDUCATION

Politeknik Negeri Padang, Padang, West Sumatra 2024 – Present
D3 Informatics Management, Semester 5

PROJECT EXPERIENCE

Web Developer · Event Management System — HIMA Politeknik Negeri Padang October 2025 – January 2026
PHP · MySQL · HTML5 · CSS3 · MVC

- Designed and developed a full-featured event management web app serving 3+ student organization events and 100+ registered participants.
- Built end-to-end modules: event listing, participant registration with validation, and admin dashboard for real-time data management.
- Implemented responsive UI (HTML5/CSS3) improving cross-device accessibility; applied MVC pattern for clean code separation.

Web Developer (Team Project) · PPDB SMK Kota Padang December 2025
Student admission system | PHP · MySQL

- Developed the Affirmation Pathway (Jalur Afirmasi) module of a multi-role student admission platform for vocational high schools, one of four selection pathways built by the team.
- Built the economic-data form for affirmation applicants: government aid type (KIP/PKH/KIS/SKTM), aid card number, parental income range, number of dependents, and supporting documents owned.
- Updated the configuration and super admin modules to support the new pathway.

UI/UX Design Project (Figma)
Figma

- Designed a user-friendly and visually appealing interface for a web/mobile application.
- Created wireframes, high-fidelity designs, and interactive prototypes.
- Responsible for layout design, color selection, typography, and design consistency to enhance overall user experience.

CERTIFICATIONS AND TRAINING

- Junior Graphic Designer (Batch 1), VSGA Program, BBPSDMP Medan in cooperation with Padang State Polytechnic — Certified, July 2025
- HCIA-Cloud Computing V5.5 (Certificate of Completion), Huawei ICT Academy — 2026
- HCIA-Cloud Service V3.5 (Certificate of Completion), Huawei ICT Academy — 2026

ACHIEVEMENTS

Semifinalist (Top 30 of 80 applicants), IANTA Scholarship 2026 October 2026

- Designed a social project plan, “Jembatan Masa Tunggu”, for families with irregular income: survey of 30 families, community savings fund, and mentoring for 3 small businesses, with measurable targets and a Rp250,000 budget.

SKILLS

Technical: PHP, MySQL, HTML5, CSS3, MVC, Figma, wireframing and prototyping, graphic design (logo, catalog, promotional materials).

Other: survey design and basic data processing, public speaking, social media management, illustration.

Languages: Indonesian (fluent), English (intermediate).
